4

Recorders

Records:

- Connected Cameras
- Vehicle location via GPS (optional)
- Impact Proof of an accident
- Vehicle Dynamics (Surroundings recording, Date, etc)
- Driving Style
- Vehicle speed (optional)
- Real Time Video Recording via 3G/4G (optional)

Protects against:

- Theft/damage
- Cash for Crash / Staged & Pre-meditated accidents
- False/Exaggerated Whiplash Claims
- Conflicting Reports of Actual Events
- Lack of Witnesses
- Incorrect Driving offences (speeding etc)
- Traffic Allegations (illegal parking, etc)
- Disavowing Impolite or illegal Activities

5

Reversing Cameras

- External/weatherproof cameras designed to be installed at the rear of any vehicle
- IR nightvision viewing in dark conditions

Allows the user to:

- View possible 'Blind Spots' when reversing
- Safely manoeuvre vehicle

6

Interior Cameras

- Designed to be installed into any vehicle
- Connects to a recorder and/or monitor for live viewing.
- IR nightvision viewing in dark conditions (optional)

- Monitor theft/damage
- Driver and passenger safety
- Monitor prohibited activity

- Disavowing Impolite or illegal Activities

5

Side Sensors

Obstacle Sensors with:

- Numerical LED Display for distance
- Left/Right Coloured Bars and Buzzer (optional monitor required for on-screen display version)
- Designed for recessed fitting on front, side or rear of vehicle

Allows the user to:

- Safely manoeuvre vehicle

6

Reversing Sensors

Obstacle Sensors with:

- Numerical LED Display for distance
- Left/Right Coloured Bars and Buzzer (optional monitor required for on-screen display version)
- Designed for recessed fitting on front, side or rear of vehicle

Allows the user to:

- Safely manoeuvre vehicle

7

Reversing Cameras

- External/weatherproof cameras designed to be installed at the rear of any vehicle
- IR nightvision viewing in dark conditions

Allows the user to:

- View possible 'Blind Spots' when reversing
- Safely manoeuvre vehicle

8

Interior Cameras

- Designed to be installed into any vehicle
- Connects to a recorder and/or monitor for live viewing.
- IR nightvision viewing in dark conditions (optional)

- Monitor theft/damage
- Driver and passenger safety
- Monitor prohibited activity

# Solutions for Private Vehicles

## Solutions

## Description

## Benefits

1

Forward Facing Cameras

Records:

- The drivers view of road
- Truth and fact recording of events
- Proof Recording of an accident
- Vehicle' s front situations
- Driving Style
- Taffic violation activities

Protects against:

- Cash for Crash / Staged & Pre-meditated accidents
- False/Exaggerated Whiplash Claims
- Conflicting Reports of Actual Events
- Lack of Witnesses
- Incorrect Driving Habits (Smoking etc)
- Traffic Allegations (illegal parking, etc)

2

Side View Cameras

- External cameras that installed to side of vehicles or directly under wing mirrors.
- Allows the user to view down the side of vehicles (using an optional monitor)

Allows the user:

- View 'Blind Spots'
- Safely manoeuvre vehicles

3

Monitors

- Display live images of connected cameras
- Small form factor design for discreet installation
- Available in various sizes

- Monitor theft/damage in storage areas of a vehicle
- Driver and passenger safety
- Monitor prohibited activity
- Visual aid whilst manoeuvring (i.e. reversing) vehicles

4

Reversing Sensors

Obstacle Sensors with:

- Numerical LED Display for distance
- Left/Right Coloured Bars and Buzzer
- Designed for recessed fitting on front, side and/or rear of vehicle

Allows the user to:

- Safely manoeuvre vehicle

# Solutions for Forklifts & Plant

## Solutions

## Description

## Benefits

1

Forward Facing Cameras

Records:  
- The drivers view of road

Protects against:  
- Workplace accidents  
- Conflicting Reports of Actual Events  
- Lack of Witnesses

2

Recorders

Records:  
- Connected Cameras  
- Vehicle location via GPS (optional)  
- Impact Proof of an accident  
- Vehicle Dynamics (Surroundings recording, Date, etc)  
- Driving Style  
- Vehicle speed (optional)  
-Real Time Video Recording via 3G/4G (optional)

Protects against:  
- Theft/damage  
- Cash for Crash / Staged & Pre-meditated accidents  
- False/Exaggerated Whiplash Claims  
- Conflicting Reports of Actual Events  
- Lack of Witnesses  
- Incorrect Driving offences (speeding etc)  
- Traffic Allegations (illegal parking, etc)  
-Disavowing Impolite or illegal Activities

3

- Produces detailed wide angle image of the rear of the vehicle  
- External/weatherproof cameras designed to be installed at the rear of any vehicle  
- Output reversed (Mirror) images for viewing on an optional monitor  
- IR nightvision viewing in dark conditions (optional)

# Solutions for Motorcycles

## Solutions

1

Forward Facing Cameras

## Description

Records:

- The drivers view of road
- Vehicle location via GPS
- Impact G-forces of an accident
- Vehicle Dynamics (Acceleration, Braking etc)
- Driving Style
- Vehicle speed

## Benefits

Protects against:

- Cash for Crash / Staged & Pre-meditated accidents
- False/Exaggerated Whiplash Claims
- Conflicting Reports of Actual Events
- Lack of Witnesses
- Incorrect Driving offences (speeding etc)
- Traffic Allegations (illegal parking, etc)

2

Recorders

Records:

- Connected Cameras
- Vehicle location via GPS (optional)
- Impact Proof of an accident
- Vehicle Dynamics (Surroundings recording, Date, etc)
- Driving Style
- Vehicle speed (optional)
- Real Time Video Recording via 3G/4G (optional)

Protects against:

- Theft/damage
- Cash for Crash / Staged & Pre-meditated accidents
- False/Exaggerated Whiplash Claims
- Conflicting Reports of Actual Events
- Lack of Witnesses
- Incorrect Driving offences (speeding etc)
- Traffic Allegations (illegal parking, etc)
- Disavowing Impolite or illegal Activities

# Solutions for Trains

4

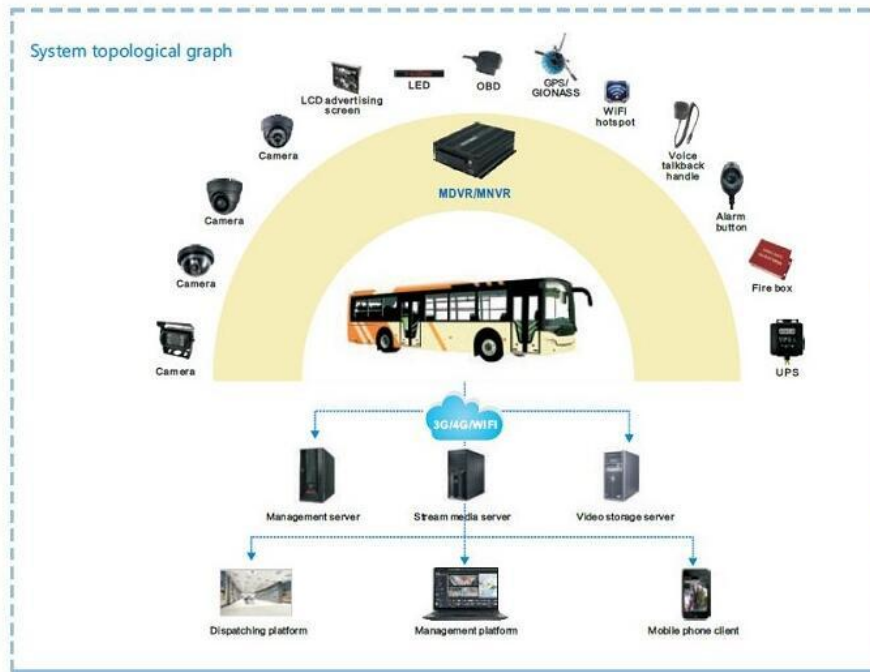

#### Monitors

---

- Display live images of connected cameras or direct video output from a recorder
- Small form factor design for discreet installation
- Available in various sizes
- Monitor theft/damage in specific areas of a vehicle
- Driver and passenger safety
- Monitor prohibited activity
- Visual aid whilst manoeuvring (i.e. reversing) vehicles

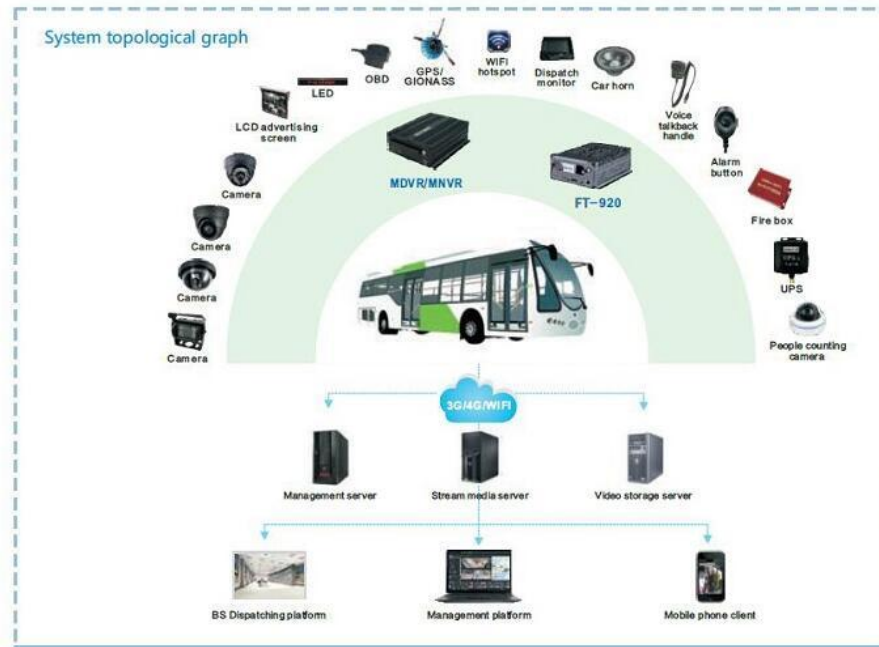

# System Topological Graphs for Different Vehicle's Installation

Public Bus Intelligent Dispatching System Solution

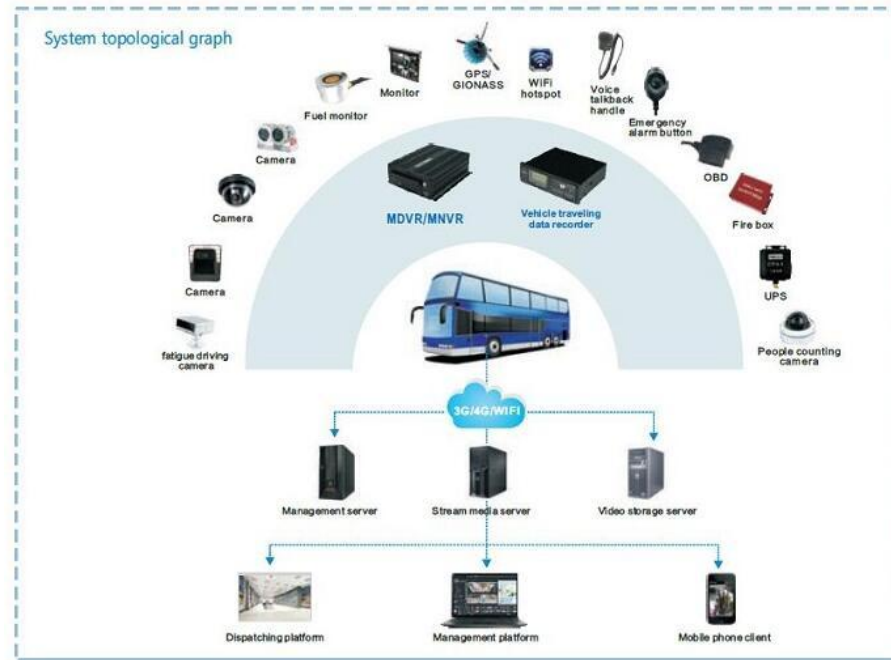

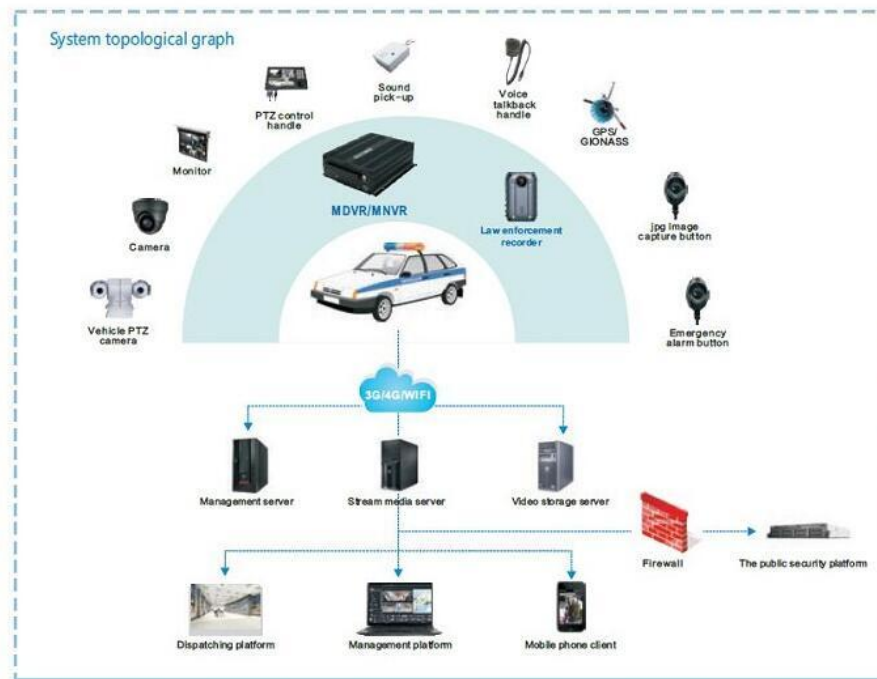

## Public Bus Wireless Video Monitoring System Solution

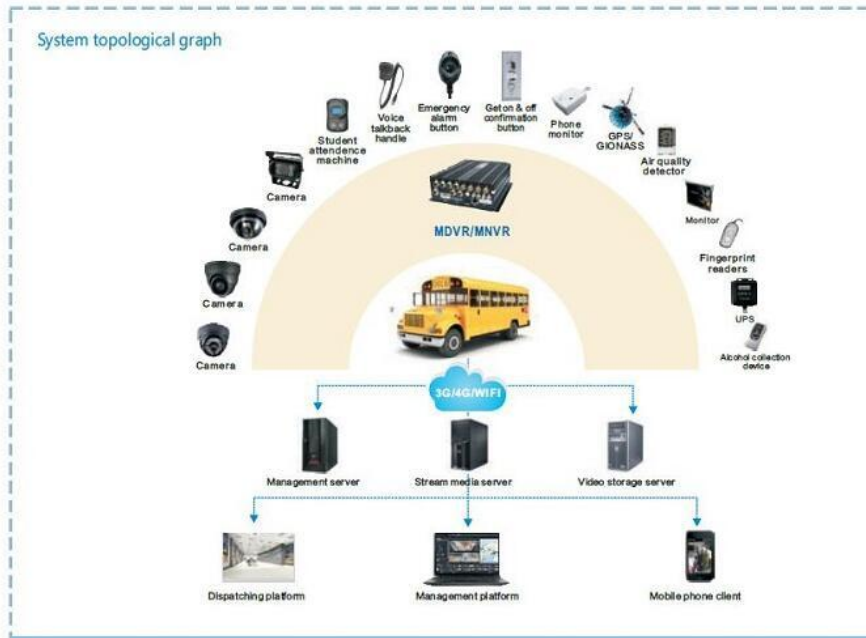

## Passenger Vehicles and Transport Vehicles Monitoring System Solution

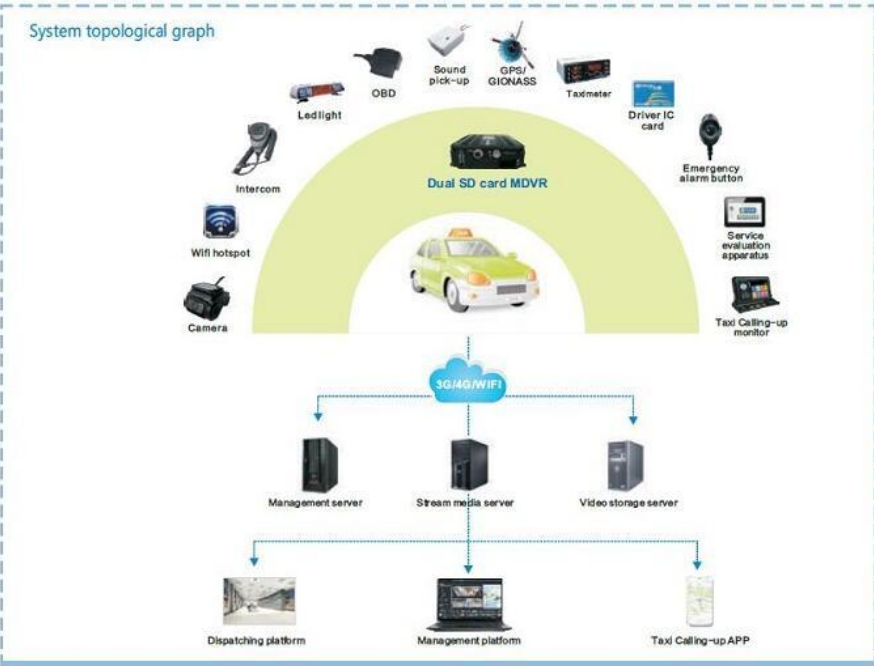

## Police Law Enforcement Vehicles Forensics System Solution

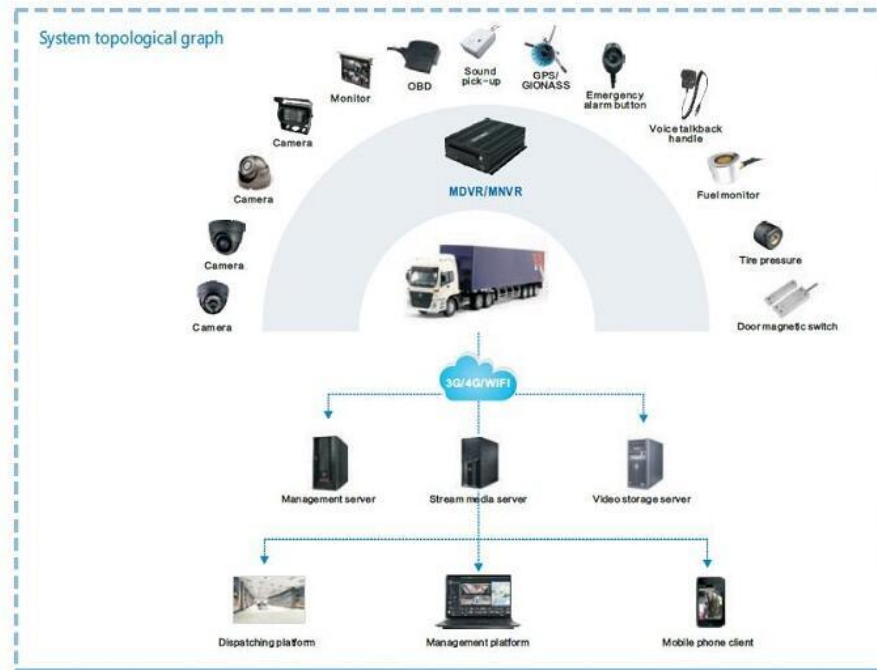

## School Bus Security System Solution

Taxi Monitoring System Solution (Working with Taxi on-calling system)

## Logistics Transport or Supermarket Delivery Vehicles Monitoring System Solution

## Hazardous Chemicals Transport Tank Truck or Oil / Gas Transport Tank Truck Monitoring System Solution
